

MSE Program Outcomes

Outcome #1: Your in-depth knowledge of specific engineering topics.

Outcome #2: Your ability to apply knowledge of engineering, mathematics, and computational tools to solve engineering problems.

Outcome #3: Your ability to locate, analyze, and comprehend relevant engineering literature.

Outcome #4: Your ability to communicate effectively through written and oral presentations.

Outcome #5: Your understanding of the need for life-long learning and professional development.

Outcome #6: Your understanding of the importance of professional and ethical responsibility.

Outcome #7: Your ability to apply engineering management skills.
